## 2. Typical Features

POWERPLUS TRAC 300 10W30 is a multi-purpose transmission oil specially developed for use in tractor and agricultural machinery in automatic transmission, ax, hydraulic, wet brake systems, final drive units and power take-offs.

- Provides high performance in power transmission of moving equipment.
- It has excellent low temperature performance and high temperature performance.
- With its friction regulating insertion, it ensures that the brake system operates with high efficiency and quietness.
- Thanks to its high thermal and oxidation stability with the additive packages it contains, it prevents deposit formation and increases working efficiency.
